Hi Lisa, Walter and Katie – Attached are NRDC's comments on the draft Filtration Avoidance Determination for the NYC water supply.

EPA has played such a central and critical role in shaping and strengthening these determinations since the 1990s.

And your assistance in enhancing the watershed protection programs in this latest draft are certainly needed.

I hope we can have a short Zoom meeting with you all, Riverkeeper and the Catskill Center for Conservation and Development in the next several of weeks.

Thanks in advance for all your good work.

Eric
